EXPERIENCE

Web Development Intern | CodSoft | Oct 2023 – Nov 2023
- Completed 4 – week web development internship.
- Worked on live web projects of CodSoft to enhance my coding skills and collaborated with various teams.
- Involved in design, development, testing (functional and performance) and deploying.

TRAINING

- **Ethical Hacking |** Internshala Trainings, Online | Dec 2023 – Present
- **Google Cloud Career Readiness – Associate Cloud Engineer |** Google Cloud, Online | Dec 2023 – Feb 2024
- **Full Stack Development |** Softflix, Mysuru | Nov 2023 – Present
- **Data Structures and Algorithm |** Softflix, Mysuru | Jan 2023 – March 2023

PROJECTS

Alumni Tracking and Management System   Jan 2024 – Jan 2024
Designed and implemented a dynamic Alumni Tracking System utilizing HTML, CSS, PHP, and AJAX, facilitating real-time data management and updates for streamlined alumni engagement and information tracking.

Event Planner Website   Nov 2023 -Nov 2023
I've developed an event planner website with HTML for structure, CSS for styling, and JavaScript for dynamic functionality. It provides a seamless user experience for planning and coordinating events effortlessly.

Expense Tracker Website   Aug 2023 -Aug 2023
I crafted an expense tracker website using HTML, CSS, and JavaScript, enabling users to efficiently monitor and manage their financial transactions. The intuitive interface ensures a seamless experience for tracking expenses.

Doctor Optimization app   Jul 2023 -Jul 2023
Developed a Doctor Optimization App using Flutter, enhancing healthcare efficiency through intuitive UI and cross-platform functionality. Integrated features for streamlined medical processes and improved patient care.

Fitness App   May 2023 -May 2023
I created a cross-platform fitness app using Flutter, featuring a sleek UI and responsive design. The app utilizes Dart programming for seamless performance, providing users with a dynamic and engaging fitness experience across various devices.

ACHIEVEMENTS

Secured 2nd place in a prestigious national-level hackathon hosted by PES College of Engineering, Mandya. Leveraged innovative problem-solving skills and technical expertise to create a cutting-edge web application titled "Alumni Tracking System".

Being among the top 20 teams out of 100 in YenArtificia, the national-level hackathon by YenePoya Institute, Manglore, was a proud achievement. We embraced the challenge with dedication, crafting a groundbreaking web development project.

Being among the top 50 teams out of 600 in Infothon, the national-level hackathon by VVCE Mysore, was a proud achievement. Despite not clinching the top spot, the experience was invaluable. It honed our skills and fostered collaboration.

Participating in the Girl Geek Hackathon, hosted by IEEE and focused on cyber security, was a remarkable experience. Through collaboration and innovative problem-solving, our team developed solutions to real-world cyber security issues.

EDUCATION

Bachelor of Engineering (B.E), Information Science
Vidyavardhaka College of Engineering
2021 – 2025
Aggregate: 8.8 (Current)

PROFESSIONAL SKILLS

- HTML
- CSS
- JavaScript
- SQL
- Ethical Hacking
- Data Structures

Core Languages:

- Java
- C Programming

Tools:

- Power BI
- Flutter
- Visual Studio
- Eclipse

SKILLS

- Design
- Adaptability
- Analytical
- Problem Solving
- Planning
- Responsibility
